Veneer Visual and Moisture Analyzer R5 - Lay-up

Analyzer with a high-accuracy camera system and industrial light system, ensuring correct visual quality and moisture for hot pressing, minimizing the risk of delamination and rejected end products.

BENEFITS

- Improve production efficiency
- Increase profits
- Minimize amount of rejected end products

TECHNICAL DETAILS

	Dark	Open
Veneer thickness (mm)		0.5 – 4.2
Available sizes (ft)	4 - 8	4 - 8
Grading accuracy	>95%	>95%
Moisture Sensors (pcs)	8 - 16	8 - 16
Moisture Range (mc)	5% - 20%	5% - 20%
Moisture Accuracy (mc)	±3%	±3%
Open defects (e.g. Hole, Fishtail)	●	●
Dark defects (e.g. Dark wane, Dark knot)	●	○
Face Veneer Thickness (mm)	0.5 – 4.2
