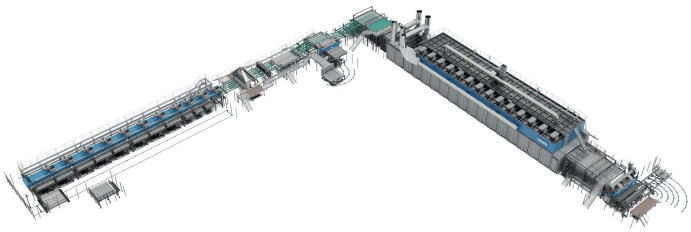
Veneer Drying Line R7



The most efficient and advanced veneer drying line in the industry.

BENEFITS

- Save 15% in energy consumption/m3 produced veneer
- Increase drying capacity by 10%
- Minimized fugitive emissions
- Just one operator is needed to run this drying line

TECHNICAL DETAILS

	R7, thin veneer	R7, thick veneer	R7, screen dryer
Veneer thickness (mm)	1.2-2.0	2.0-4.6	0.15-4.0
Veneer sheet capacity up to	90	72	64
Stainless Steel Skins	●	●	○
Operators on the Line (Minimum)	2	1	2
Dryer decks and widths	D4/D6 4800/ 6200	D4/D6 4800/ 6200	D4 6400 or custom
Sealant cells	●	●	○
Smoke extraction cells	On request	On request	●
Heating Method	steam, oil, gas	steam, oil, gas	steam, oil, gas
Optimized heating system	●	●	●
Exhaust Air Blower	●	●	●
Misting System	●	●	●

Screen cleaners	●	●	●
Make-up Air Pre-heating	●	●	●
Optimized humidity control	●	●	○
Automatic process controls	●	●	●
Hot air circulation blower speed control	●	●	●
Automatic random feeder	○	●	○
