Performance-based bonus systems' key principles of remuneration

Raute Group's performance-based bonus system includes separate systems for the President and CEO, the Group's Executive Board, key personnel, and other personnel. A person can receive bonuses from no more than one of these systems at a time. The Board of Directors annually confirms the general principles, maximum amounts and calculation methods for the remuneration systems. The performance-based bonus system is in force for one year at a time. Bonuses are paid provided that the Group has made a positive annual profit. The maximum amount of performance-based bonuses has been restricted to 20 per cent of the Group's operating profit. Performance-based bonuses are paid once a year after the Annual General Meeting has confirmed the financial statements.

Payment of bonuses within the performance-based bonus systems for the President and CEO, the rest of the Group's Executive Board and key personnel is dependent on the person's performance and task-related personal targets for the entire year. The maximum bonus for the President and CEO in the performance-based bonus system is six months' salary and for the other Executive Board members three months' salary.

The payment of bonuses within the performance-based bonus system for the rest of personnel is dependent on the Group's profit and the targets set for the unit's performance, quality and operations. In the performance-based bonus system for the entire personnel, part of the bonuses are determined and paid quarterly.

Key principles of the long-term incentive plans

Performance Share Plan 2014–2018 (LTI2014, LTI2015, LTI2016)

On 12 February 2014, Raute Corporation's Board of Directors decided on a new long-term Performance Share Plan for the Group's senior management. The purpose of the plan is to align the objectives of the owners and management, for example, in terms of developing the company's value and to engage management by offering a competitive incentive plan based on ownership of the company's shares.

The share plan includes three three-year share plans, which each include a year-long earnings period and a two-year vesting period following the earnings period, during which the bonus's value development is based on the development of the value of the share. Any

payment of share rewards is carried out in the company's series A shares and the portion intended for paying tax on the bonus is paid in cash. Participants in the share plan cannot sell or otherwise transfer any shares received as a bonus during the vesting period. The share plans commenced in 2014, 2015 and 2016.

The company's Board of Directors separately decided on the participants in the share plans and on the earnings criteria applied during each earnings period, the targets set for them and the target and maximum levels of the bonus to be paid. The earnings criteria of the share plan are earnings per share and growth in net sales. The 2015 share plan covers altogether 11 persons and the 2016 share plan covers altogether 12 people belonging to the Group's senior management.

LTI2014

The bonus earned during the 2014 earnings period, altogether EUR 49 thousand, was paid out entirely in cash in 2015, as decided by the Board of Directors, and the share plan has ended.

LTI2015

The bonus earned during the 2015 earnings period, altogether EUR 614 thousand, was paid out on 6 March 2017. The vesting period ends at the start of 2018.

LTI2016

The total amount of bonuses earned during the 2016 earnings period and the personal proportions were confirmed in February 2017. The bonus will be paid in spring 2018. The vesting period ends at the start of 2019.

Performance Share Plan 2017–2022

(LTI Plan 2017–2019, LTI Plan 2018–2020, LTI Plan 2020)

In February 2017, the Board of Directors of Raute Corporation resolved to implement a new performance-based, share-value-based, long-term incentive plan for the Group's senior management. The purpose of the plan is to align the objectives of the owners and management in order to develop the company's value, and to commit management to achieving the company's strategic goals by offering a competitive long-term incentive plan.

The Performance Share Plan is made up of three three-year plans that begin every year. A single plan may consist of either a three-year earnings period or a one-year earnings period and the subsequent two-year vesting period. The possible bonus earned by virtue of a single

plan shall be paid at the end of the three-year plan in question. Any potential bonus will be paid either in Raute's listed A shares or in cash.

The company's Board of Directors decides separately on when each plan commences, the length of its earnings period, the performance targets, the persons entitled to participate in the plan and the earnings opportunity.

LTI Plan 2017–2019

LTI Plan 2017–2018 commenced at the start of 2017. The plan consists of a one-year earnings period and the subsequent two-year vesting period. The bonuses shall be paid in spring 2020. The plan covers altogether 12 persons belonging to the Group's senior management, including the Group's President and CEO and the members of the Executive Board. The performance targets are earnings per share (EPS) and growth in net sales. The earnings opportunity is limited such that the value of the bonus, at the time of payment, to be paid to a participant based on a single three-year plan can be no more than double the value of the maximum earnings opportunity allocated to him/her when the plan commenced.

LTI Plan 2018–2019

LTI Plan 2018–2019 commenced at the start of 2018 by separate decision of the Board of Directors.

In accordance with the ownership recommendation the company abides by, each participant in the plan is expected to accrue and, after attaining, to retain in his/her ownership an amount of the company's shares that is double the value of the gross value of the earnings opportunity allocated to him/her in the most recent ongoing plan. Each

participant in the plan is expected to use 50 per cent of the net bonus he/she receives from the plan to accrue his/her share ownership until such ownership meets the level recommended above. Share ownership accrues either by retaining ownership of bonuses received as shares or by acquiring shares through cash bonuses received under the plan.
