# Veneer Visual and Moisture Analyzer R5 - Lay-up

Analyzer with a high-accuracy camera system and industrial light system, ensuring correct visual quality and moisture for hot pressing, minimizing the risk of delamination and rejected end products.

## BENEFITS

- Improve production efficiency
- Increase profits
- Minimize amount of rejected end products

## TECHNICAL DETAILS

| | Dark | Open |
|---|---|---|
| Veneer thickness (mm) | | 0.5 – 4.2 |
| Available sizes (ft) | 4 - 8 | 4 - 8 |
| Grading accuracy | >95% | >95% |
| Moisture Sensors (pcs) | 8 - 16 | 8 - 16 |
| Moisture Range (mc) | 5% - 20% | 5% - 20% |
| Moisture Accuracy (mc) | ±3% | ±3% |
| Open defects (e.g. Hole, Fishtail) | ● | ● |
| Dark defects (e.g. Dark wane, Dark knot) | ● | ○ |
| Face Veneer Thickness (mm) | 0.5 – 4.2 | |
