Veneer Scarf-Jointing Line R7

BENEFITS

- Improve yield up to 2%
- One operator needed
- Reduce gluing time 1,5 seconds per joint
- Best quality on the market
- The strongest scarf-joints in the world

TECHNICAL DETAILS

Veneer thickness (mm)	1,2 – 3,6
Operators on the Line	1
Capacity up to (m3/h)	45
Joints/8h up to	13500
Line Speed (m/s) nom.	1,3
Feeding speed (sheets/min) max.	36
Veneer infeed Length up to (mm)	2600
End Product Length Up To (mm)	4200
Stack Height outfeed (mm) max.	1500
Number of presses	3-5
Adjustable bevel length, (mm)	20-25
Movable trimming sawing	●
Servo wheel alignment	●
2-Component Gluing system	●

Automatic Stack removal	●
Veneer infeed Width up to (mm)	2600
