

## **Block Centering Analyzer R7 - Peeling**

Analyzer with the most sophisticated XY centering and block optimization to ensure the best possible veneer recovery.

## **BENEFITS**

- Increase veneer recovery up to 15 %
- Produce up to 20 % more face veneer
- Increase uptime with longer maintenance intervals
- Maximum production capacity
- · Short payback time

## **TECHNICAL DETAILS**

Block Diameter (mm)	140-1200
Block Length (ft)	5 - 10
Centering Accuracy	± 2mm
Block scanning up to (pcs/min)	15-20
