

Core Veneer Composing Line R7

BENEFITS

- Only one operator needed to handle two lines simultaneously
- Even 15% more recovery thanks to accurate scanning and clipping
- The tightest and strongest joints in the world
- Recovery of even as narrow as 50mm randoms

TECHNICAL DETAILS

	R7-5ft	R7-8ft
Veneer thickness (mm)	1,2 - 4,2	1,2 - 4,2
Operators on the Line	1	1
Installed power (kW)	55	55
Line Speed up to (m/min)	50	50
Capacity, (length meter/h)	435	435
Veneer Visual Analyzer R7 – Composing	●	●
Minimum random width (mm)	50	50
Composed sheet width (mm)	1000 - 4500	1300 - 3200
