

Veneer Moisture Analyzer R7 - Drying

The most accurate dry veneer moisture analyzer in the market. Utilizing non-contact microwave measurement through the veneer sheet.

BENEFITS

- Improve drying capacity
- Minimize over drying
- Produce higher-quality veneer

TECHNICAL DETAILS

Veneer thickness (mm)	0.5 – 4.2
Available sizes (ft)	5 - 10
Moisture Range (mc)	0 – 40%
Sensors (pcs)	16 - 24
Maximum moisture accuracy (mc)	±0.5%
