

Veneer Moisture Analyzer R7 - Drying

The most accurate dry veneer moisture analyzer in the market. Utilizing non-contact microwave measurement through the veneer sheet.

BENEFITS

- Improve drying capacity
- Minimize over drying
- Produce higher-quality veneer

TECHNICAL DETAILS

| | |
|--------------------------------|-----------|
| Veneer thickness (mm) | 0.5 – 4.2 |
| Available sizes (ft) | 5 - 10 |
| Moisture Range (mc) | 0 – 40% |
| Sensors (pcs) | 16 - 24 |
| Maximum moisture accuracy (mc) | ±0.5% |
